Hey girl :) I've been growing my hair back from chemotherapy. I used black soap shampoo to promote hair growth when I was bald and saw results within a week or two. It has now been 3 months and It has managed to grow a little longer than half an inch I would say & no bald spots yaay! I have been looking into buying Another product to help my hair grow healthier and maybe stimulate hair growth. I know I probably can't do much to make it grow faster but I know there must be something to make it grow thicker and healthier. I've been on a binge on hair videos and I'm am so confused now! I decided to write to you since I owe my hair growth thanks to your awesome tips on using the black soap shampoo thank you so much!

Hello Everyone,

I am here to tell you that Jass's regimen WORKS. I am a living testimony. As a child I had beautiful long, thick, luscious hair. As I grew up I started letting the unrealistic westernized beauty standards deteriorate my mindset about my hair texture. I began braiding, pressing, perming and weaving my hair. After THIRTEEN years of terrible hair treatment I decided to make a change. I had NO EDGES. After getting encouraged and watching Jass's videos, who I share a similar hair texture with, I decided to shave off every single inch of my hair on my head, like Jass. The only regret that I have is that I wish that I shaved off all that nasty hair sooner. It has been almost four months now, (in the pictures its at three months), and my hair is FLOURISHING off of Jass's regimen. I wash my hair with only warm- hot water three times a week, and wash and deep condition bi-weekly. I use her shea butter mixture every morning and night and seal it with black castor oil and water. I also sleep with satin scarves and silk pillowcases. My hair is just growing, my edges are coming back and my hair is so much thicker. I am also taking mielle organics, which are pills to support healthy hair growth. I have also maintained a healthy diet and exercise. So, overall I have just seen an immense improvement in my hair and i OWE IT ALL TO JASS. She is heaven sent! I thank the universe I found her page every day. Please, please, please Do not get discouraged. If you are consistent, nourish and care for you hair EVERYDAY. I can promise you that you will see results immediately.

Hi Jass! I've followed you on YouTube for quite some time...

I just wanted to THANK you sincerely and VOUCH FOR YOUR PRODUCTS!!! You have a winning mixture there...real talk 100 100 .

My journey/BC started in May 2015 and I cannot BEGIN to express my surprise, excitement, disbelief in how much progress my hair has made! Alopecia kept me sooo discouraged, I never even attempted to regrow my hair in the past 10+ yrs. It was YOUR vids that inspired me to JUST START OVER. Thank you for that!!

Though I began my journey with copying your recipes from the original vids 😊, I purchased your Shea Butter Mixture... and I LOVE it better than your original recipe 😍😍!!! I plan to purchase the Black soap shampoo very soon to see if my hair loves it better too!

I was also inspired by you to record my journey. I don't think I'll ever it post online, but here are a couple of pics...

::Pics: May 2015 vs. August 2015; fresh wash & twists for bed...that's 90 Days. For me, incredible progress 🙌 in large part because you took time to share your regimen and products!

THANK YOU Jassica for every minute you've dedicated to genuinely helping us girls with scalp issues 🙏🙏!! May your every endeavor bring success & joy!!!

This product is really helping my hair grow back, I didn't think my hair would be able to grow back that fast because my old alopecia spots I had back when I was like 13 took forever to grow back, but now it don't take that long because of this product Alopecia free Shea butter mixture. I do have pictures but I just didn't take a picture of my spots when they where completely bald to the scalp. The pictures at the bottom are two different bald spots.

Alopecia Free Whipped Mixture

Quimberly (*verified owner*) – July 12, 2016

Jass, Thank you for making the alopecia free whipped mixture, I purchased it after getting the other products, but I am glad that I did get it, because it has added a lot of moisture to my 4c hair. Quimberly.

I'm in love with these products

Nhappy Andlove (*verified owner*) – February 4, 2016

I'm really happy to have discovered your channel, and to follow you. I used to make braids, vanilla with my own hair or not. My hair loss started like that. But it is hopeless to try products and not seeing results. So I combined several products come castor oil, JBCO and your products. What a pleasure to see these results thanks to the advice, perseverance and products. I put every other night on the edge of my head with my homemade spray. Thank you thank you thank you Jass. Alopecia is no longer inevitable for me anyway.

Alopecia Areata

chidinmaazuonye (*verified owner*) – January 20, 2016

I have suffered with hair loss on a particular bald spot for almost 7 years. I tried everything from steroid injections to onions no progress. I just started using the shear butter mixture and it's incredible. I no more have itchinness and my hair that refused to grow started growing. Can't wait to try the black shampoo.

Jass's product is heaven sent

brian.loves.love – November 23, 2015

I'm really glad I discovered Jass' Shea butter mixture as its completely changed my life. I read a lot of things on alopecia and was discouraged that I would never have been able to regrow my hair and was extremely skeptical when I first discovered Jass' youtube page. However, I purchased the product and tried it out for my self and my bald areas have been growing back, almost miraculously. I can't thank Jass enough for the invaluable knowledge she has been able to give us all about her experience and her products and step by step method in regrowing bald areas. I highly recommend anyone that has hair loss issues to give Jass' Shea butter mixture a shot, it'll change your life and most certainly guarantee you'll grow back your hair if you stay consistent and eat the right foods. I've tried a lot of other products and this is the only thing that truly works!

The Only Shampoo I'll Ever Use Again

brian.loves.love (*verified owner*) – November 23, 2015

This is by far the best Shampoo I've used in my life and don't think I can go back to using those store brand shampoos. I only use natural products in my hair now and this shampoo is all natural and has worked wonders on my hair. The quality of my hair has changed significantly when using this shampoo. My hair is always soft and shiny and has an amazing texture to it all the time. Overall, a fantastic product for people who only use natural products on their hair.

Amazing Product!

jfernandez0219 – November 22, 2015

I was diagnosed with alopecia for a few months ago but it started around 3 years ago. It wasn't until I went to a doctor to get blood work done and have it confirmed. On a mission to find a cure, I was always trying different products but none seem to work and I was growing impatient. I'm 23 and the last thing I wanted was to be losing my hair in spots in the front. I was on YouTube one day and came across Jassica's channel and I watched her videos on her alopecia and her discovery with the BLACK SHAMPOO AND THE SHEA BUTTER. I decided to order the Shea butter and just make my own Black Shampoo and let me just say it was a miracle in a jar and bottle! When I tell you my hair is filling in where the spots were! I couldn't believe it. I started seeing growth in the first month, but for others it may be different. So I just say be patient and allow your body to adjust to it because it really does work and I have the pictures to prove it! The first picture is before anything, the middle is the first month and the last is the second month and as you can see it's slowly filling in! Thanks again Jass for all that you do!

Whipped Shea Butter and more...

My 10 yr old daughter was diagnosed with traction Alopecia about 2 years ago. After multiple doctor and dermatologists visits and with no success of stopping her hair loss, I was left sad and hopeless. The Whipped Shea Butter Mixture, shampoo, revitalizing oil and hair spritz has been the ONLY product that has promoted her hair regrowth. I've been using the product on my daughter only since May '16 and am beyond belief at how quickly her hair has started to regrow. This is after a dermatologist said she had permanent hair loss! No way doctor....no way! Jass...I am so grateful for your products and will be a life-long customer. Please don't stop doing what you are doing because it works! Just look!!!

This product is amazing!

kgstayinlove (*verified owner*) – August 19, 2016

My son lost his hair at the age of 1, took him to specialist and they told me he has alopecia and theres nothing they can do about it. So I did my research online and i am so glad I found this one. After a month of use. My sons hair is back... AMMMAZING! People notice the big difference and we are so happy to have recommend this product to most of our friends.

Very Good Product

florence328 (*verified owner*) – October 10, 2016

I started using it 4 weeks ago after mixing it with argan oil I started seeing more growth. I have been battling traction alopecia for 7 years and I did not know what to use until a facebook friend referred me to Jass and I bought black soap shampoo and shea mixture. I will continue to use it until all my hair fill up. One area on the left side is already filling up same as the edges. Thank you Jass

Healed Alopecia faster than any meds i've used..

shop.alopeciafree.com

marcos-suarez (verified owner) - December 9, 2016

I was diagnosed with Alopecia Areata back at the age of 8 in the year 2001. The Alopecia Areata spots disappeared on it's own by time I reached 16 years old back in 2009. Alopecia Areata then evolved into Alopecia Universalis a few months after I turned 21 years old in 2014. I always avoided medication but with the help of some doctors I was able to grow all my hair back by the end of 2014 when I was 22 years old. The thing about that was that I was going to have to be on medication for the rest of my life. Two problems with that were that it wasn't good for your health in the long run and eventually your immune system gets used to it and it stops working. That's exactly what happened and by 2016 at the age of 24 I found myself with Alopecia Areata Spots again once I started to get off meds. I did some research and tried to find answers and eventually discovered that more people found answers through natural ways of healing instead of using meds. I then searched for more stories and ran into Jassica's story on youtube and what she used to help and immediately felt like I needed to try this. I used a combo of the Scalp Bam Mixture and The Hair Stimulating Oil Blend every single night and by the end of the first week I feel like I saw a growth. After a month my spots were filled in. They were not completely filled in as you can see but it's only been a month it's still still growing. Will definitely continue to use these products.
